ECM/ERP Software Developer

Metafile is looking for a professional commercial software developer for its software integration team. This position focuses on innovating with web services, workflow, and data automation between enterprise accounting systems and our MetaViewer product line. The primary role is to assist with building, maintaining, and troubleshooting software that integrates with Microsoft Dynamics ERP systems. Secondary roles for this position include assisting others to build, maintain and troubleshoot components that enable integration with other ERP systems. Candidates with ERP experience will be given preference. This is an on-site position.

Skills Desired:

- Computer Science degree or equivalent experience
- Experience with Visual Studio using C#, TSQL, VB, X++, or C++
- Strong and demonstrable problem solving and troubleshooting skills
- Willingness to learn new technologies, platforms, and programming environments
- Self-motivated, ability to work in a team, and take direction well
- Can independently plan tasks and estimate their completion
- Strong written and verbal English language skills
- Understanding of SOAP and REST web services and related debugging techniques is desired
- Experience with Microsoft Dynamics GP, AX2012, D365FO or similar enterprise-level ERP is desired
- General knowledge of corporate accounting practices used in enterprise ERP systems is desired

Primary Duties and Responsibilities:

- Develop and document new software systems and/or applications for commercial sale
- Support, test, debug, and document existing software systems and/or applications
- Provide implementation training and support for internal staff
- Identify and evaluate new technologies for implementation
- Identify and evaluate integration options for various Microsoft Dynamics ERP features
- Write technical specifications based on conceptual design and stated business requirements
- Serve as technical expert on development projects
- Consult with end users to prototype, refine, test, and debug programs to meet needs

Qualified Candidates Should Send Resume & Cover Letter To:
